Armani Hotel Milano

The Armani Hotel Milano is the second hotel under the Armani Hotels & Resorts banner, a collaboration between Giorgio Armani S.p.a., one of the world's most prestigious fashion brands and Emaar Properties PJSC, the creator of iconic development projects.

The launch of the Armani Hotel Milano has followed the opening of the world's first Armani Hotel in Dubai, located within the Burj Khalifa, the world's tallest building.

The aesthetic of Armani Hotel Milano is unique. Giorgio Armani has lent his personal design touches to this rationalist style building, originally designed by Enrico A. Griffini in 1937.

Location

The Armani Hotel Milano is situated in the prestigious Manzoni 31 building in Milan, Italy, anchoring the world-famous fashion district known as the Quadrilatero della Moda. It is only a few minutes away from the luxury shopping streets of Via Montenapoleone and Via della Spiga, the famous Teatro alla Scala, the spectacular Piazza del Duomo, the most important museums and the nightlife district.

The Teatro alla Scala, inaugurated during the XVIII century, is the international temple of classical music where many of the world's most famous singers and composers launched their careers, and have been subsequently celebrated.

The Duomo is the city's cathedral and has become a recognized symbol of Milan. Entirely built in marble over almost six centuries, it is undoubtedly dramatic and features an imposing structure, decorative sculptures and magnificent windows. It faces one of the most important squares in the world.

Brera is one of the most historical and picturesque districts of the city, with its narrow and ethnic streets. At night, bars and restaurants set out tables in the open air and the whole area becomes a vibrant venue.

At the same time, one of the most vibrant and dynamic area, thanks to the several locations and trendy restaurants.
